 Personalised focus & recommendations

- 1

Nature & wellness · 35%

Add more outdoor time, movement and consistent sleep routines.
- 2

Curiosity & learning · 36%

Spark curiosity with wonder questions, library visits and how-it-works videos.
- 3

STEM & analytical skills · 38%

Bring in playful logic puzzles, building toys or beginner coding games.
- 4

Focus & discipline · 44%

Use short focused work blocks, a visible timer and a simple daily checklist.

5 Social skills · 45%

Build in more structured group play or team activities.

6 Leadership · 51%

Offer small responsibilities, like planning a family activity or leading a game.

7 Emotional intelligence · 56%

Try name-the-feeling games and simple calming routines for big emotions.

8 Creativity · 61%

Give open-ended creative time, drawing, building or storytelling with no fixed answer.

Psychometric scores are an indicative screening tool, not a clinical diagnosis. Numerology and zodiac insights are included for cultural and reflective interest and are not scientifically validated. Children's BMI is best read against age- and sex-specific growth charts with a pediatrician, rather than fixed adult categories.
